4. Synthetic Data Notes

Policy fields and associated claim records above preserve the values supplied in the corresponding source sample. Policy-type coverage language in the schedule is illustrative and added only to make the document relevant to the listed policy type; it is not a verified contract term. Some source claim types may not ordinarily match the policy type. Those source values have been retained rather than silently changed, for consistency in testing.

All names, policy identifiers, claim identifiers, dates, statuses, amounts, and descriptions are synthetic test data. This document does not provide insurance coverage and must not be used for real insurance, claim, financial, legal, or regulatory purposes.
